Introduction

I help bring concepts to life, ensuring projects are launched on time. Programming, product support, and enhancement all fall within my scope of responsibilities. I hope to see the world change, so I always strive to connect my work and life with progressive projects.

My technology stack includes: JavaScript, TypeScript, React, Redux, Node.js, Webpack, Pixi.js, Create.js, Three.js, Gatsby.js, HTML5, Pug.js, CSS3, SCSS, Bash, Git and more.

I'm now looking forward to using my skills and experience in a fulfilling position.

Experience

12/2022 - until now
