Introduction

I assist clients in bringing their concepts to life, ensuring projects are launched on time. Programming, product support and enhancement all fall within my scope of responsibilities. I hope that the world can undergo changes, so I always endeavor to connect my work and life with progressive projects.

My technology stack includes: JavaScript, TypeScript, React, Redux, Node.js, Webpack, Pixi.js, Create.js, Three.js, Gatsby.js, HTML5, Pug.js, CSS3, SCSS, Bash, Git and more.

I'm now looking forward to using my skills and experience in a fulfilling position.
