Introduction

I create interactive web solutions, including casual web games, PWAs and complex interfaces. I have experience in developing and optimizing game projects, interactive ads, and web applications using modern technologies.

I focus on building high-performance, maintainable, and visually appealing solutions. I am always striving to improve processes and outcomes while working on projects that inspire and help clients achieve their goals.

With a robust technology stack including JavaScript, TypeScript, React, Redux, Gatsby.js, Next.js, Node.js, Webpack, Gulp, Pixi.js, Three.js, Matter.js, GSAP, Express.js, HTML5, Pug.js, SCSS, CSS3, Bash, Git, C#, I am well-equipped to tackle diverse challenges and deliver exceptional results.
